STACK / SKILLS

Proficient: Javascript, ReactJs, GIT, CSS, HTML

Familiar: NextJs, GIT, TailwindCSS, Bootstrap CSS, NODE.JS, EXPRESS.JS, MONGODB

WORK EXPERIENCE

Web Developer @Utiva | Women techster

Lagos (Remote) - 09/2021 – Till Date

- Utilized responsive web design techniques to create dynamic and responsive websites.
- Led Cross-Functional Design Collaboration
- Implemented Performance Testing and Optimization: Conducted regular performance tests and applied optimization techniques following HTML, CSS, JavaScript, React, Bootstraps best practices.

Tools: NextJs, React, CSS, Javascript, Bootstrap, TailwindCSS

Inventory Manager@AB INBEV AFA PROSERV LIMITED

Lagos (Onsite)- 12/2019 – 07/2022

- Manipulating record data on the database, data Entry and list using Microsoft Excel.
- Verify inventory computations by comparing the physical counts of stock and investigating discrepancies or adjusting errors.
- Time Management and Organizational Skills to meet deadlines, manage multiple records simultaneously, and effectively prioritize tasks.

Tools: Microsoft Excel, Microsoft Word, DMS

Customer Service Manager @Faslint telecoms

Ogun (Onsite)- 04/2015 – 09/2017

- Provide customer service by assisting customers and responding to customer inquiries and complaints, which gives me a better knowledge of user experience, customer satisfaction, and deep awareness of customer demands.
- Direct and supervise employees engaged in sales, and inventory, which gives me the ability to interact with non-technical team members
- Keep records of purchases, and sales, by updating the database

Tools: Admin database, Microsoft Excel, Microsoft Word

SIDE PROJECTS

Random Identity Generator Web Tool

I took a random API to create an interface that enables users to generate random identities of individuals from various countries, including the USA, UK and others.

To accomplish this, I utilized an API to quickly develop the tool. Despite the tight deadline, I successfully implemented the functionality, ensuring that it worked flawlessly.

Link: <https://users-info-generator.netlify.app/>

Tools: HTML, JavaScript, React, CSS, Bootstrap, TailwindCSS

Cook collective

I cloned a production site with html and css terminologies

Link: <https://bisoftgroup5.netlify.app/>

Tools: HTML, CSS

Power Up

I customized a premium template

Link: <https://mjmandelaho7.github.io/PowerUp/>

Tools: HTML, CSS
