### Profile

Versatile Software Developer excelling in frontend (HTML, CSS, JavaScript, React) and backend (Node.js, Java, Spring Boot, AdonisJS, Express.js, MongoDB, PostgreSQL). Adept at crafting user-centric interfaces and tackling complex challenges, and dedicated to ongoing full-stack proficiency. Eager to contribute expertise to dynamic projects while fostering continuous personal and professional development.

### Professional Experience

#### Backend Developer (Full Time)

2024 Nov – present | Lagos, Nigeria

*Aparte*

- Design and develop APIs for core features, including property management, booking systems, user roles, and audit logs.
- Implement secure authentication mechanisms with role-based access control (RBAC) for different user roles (admins, agents, owners, and guests).
- Implement migrations, data seeding, and manage database transactions for critical workflows like bookings and refunds.

#### Backend Developer (Contract)

2024 May | Lagos, Nigeria

*Yahshud Investment Management*

- Spearheaded backend development using Node.js, ensuring scalable and efficient server-side applications.
- Designs and maintains relational databases using PostgreSQL, adonis.js optimizing data models for efficient query performance.
- Collaborate with product managers and stakeholders to understand project requirements and translate them into technical specifications.

#### Frontend Developer(Part Time)

2024 Apr | Lagos, Nigeria

*Toph* 

- Develop and maintain responsive web applications using JavaScript, React.js, and various frontend frameworks such as Bootstrap, Material-UI, and Tailwind CSS.
- Optimize application performance and user experience through efficient coding practices and UI enhancements.
- Participate in agile development sprints, daily stand-ups, and sprint planning meetings to prioritize tasks and deliver features on time.

#### Full Stack Software Engineer (Intern)

2023 Oct – 2023 Dec | Lagos, Nigeria

*3NITI X KORPS*

- Leveraging diverse technologies for comprehensive development, spanning front-end (React) and back-end (Node.js, Express)
- Crafting scalable and efficient SQL database structures to underpin data-driven applications
- Ensuring code excellence through meticulous testing, debugging, and rigorous code reviews

- Active participation in agile methodologies, employing Scrum for iterative and incremental feature delivery

## Education
