Profile

Versatile Software Developer excelling in frontend (HTML, CSS, JavaScript, React, Svelte) and backend (Node.js, Express.js, MongoDB, PostgreSQL). Adept at crafting user-centric interfaces, tackling complex challenges, and dedicated to ongoing full-stack proficiency. Eager to contribute expertise to dynamic projects while fostering continuous personal and professional development.

Professional Experience

Full Stack Software Engineer (Intern)   2023 Oct – 2023 Dec | Lagos, Nigeria
3NITI X KORPS

- Leveraging diverse technologies for comprehensive development, spanning front-end (React) and back-end (Node.js, Express)
- Crafting scalable and efficient SQL database structures to underpin data-driven applications
- Ensuring code excellence through meticulous testing, debugging, and rigorous code reviews
- Active participation in agile methodologies, employing Scrum for iterative and incremental feature delivery

Web Developer (contract)   2023 Aug – 2023 Oct | Lagos, Nigeria
AIBOX SYSTEMS LIMITED

- Designed and built sleek and efficient user interfaces using the Svelte and react framework.
- Successfully integrated various APIs to facilitate smooth data flow between the frontend and backend systems.
- Worked closely with cross-functional teams to understand project requirements and deliver solutions aligned with business objectives.

**Backend Developer (Team Lead)**   2023 Oct – 2024 Mar | Lagos, Nigeria
Winnov8

- Lead and mentor a team of backend developers, fostering a collaborative and productive work environment.
- Spearheaded backend development using Node.js, ensuring scalable and efficient server-side applications.
- Designs and maintains relational databases using PostgreSQL, Sequelize optimizing data models for efficient query performance.
- Collaborate with product managers and stakeholders to understand project requirements and translate them into technical specifications.

Frontend Developer   2024 Apr – present | Lagos, Nigeria
Tophcomfyfashion ↗

- Develop and maintain responsive web applications using JavaScript, React.js, and various frontend frameworks such as Bootstrap, Material-UI, and Tailwind CSS.
- Optimize application performance and user experience through efficient coding practices and UI enhancements.

- Participate in agile development sprints, daily stand-ups, and sprint planning meetings to prioritize tasks and deliver features on time.

Education

B.Sc. Information Technology   2019 Feb – 2023 Feb | Lagos, Nigeria
National Open University of Nigeria

Skills
